## Books are True Friends

Written by Ned Ison, Oscaloosa, Ky., Especially for the Eagle.

Sometime ago I wrote an article for the Eagle entitled, "The Blessing of Friends," and now I want to say that books are friends also. But too often they wait in vain. One reason for this is, I think, that the people are overwhelmed by the crowd of books offered to them. There are books and books, and there are books which are not books at all.

In the old days books were rare and dear. Our ancestors had difficulty in procuring them. Our difficulty is what to select. We must be careful what we read and not, like the sailors, take bags of wind for sacks of treasures, not only lest we should now fall into the error of the Greeks and suppose that language and definitions can be instruments of investigations as well as of thought but lest, as too often happens, we should waste time over trash. There are many books to which one may apply, in the sarcastic sense, the ambiguous remark said to have been made to an unfortunate author. "I will lose no time in reading your book." It is wonderful indeed how much incident time and happiness we thoughtlessly throw away.

Many, I believe, are deterred from attempting what are called stiff books for fear they should not understand them; but there are few who need complain of the narrowness of their minds, if only they would do their best with them. In reading, however, it is most important to select subjects in which one is interested. I remember some few years ago consulting one of my teachers as to the selection of books to read. He asked me what interested me most and advised me to choose that subject.

This, indeed, applies to the work of life generally. I am sometimes disposed to think that the great readers of the next generation will be, not our lawyers and doctors, shopkeepers and manufacturers, but the laborers and mechanics. Does not this seem natural? The farmers work mainly with their head; when their daily duties are over the brain is often exhausted, and of their leisure time much must be devoted to air and exercise. The laborer and mechanic, on the contrary, besides working often for much shorter hours, have in their work taken sufficient bodily exercise and could therefore give any leisure they might have to reading and study. They have not done so yet, it is true, but this has been for obvious reasons. Now, however, in the first place they receive an excellent education in elementary schools, and in the second have more easy access to the best books.

Some of us do not wonder at what men suffer, but we often wonder at what they lose. We suffer much no doubt from the faults of others, but we lose much more by our own ignorance. It is one thing to own a library; it is, however, another to use it wisely. If I were to ed themselves in the cabinet and pray for a taste which would in the field, and obtained high

honors for their knowledge of science. It is easy to gain access to them, for they are always at my hand service, and I admit them to my company and dismiss them from it when I please. They are never troublesome but immediately answer every question I ask them. Some relate to me the events of past ages, while others reveal to me the secrets of nature. Some teach me how to live while some teach me how to die. Some drive away my cares and gladden my spirits, while others give patience to my mind and teach me the important lessons how to restrain my desires and to depend wholly on myself. In return for all their services they only ask me to accommodate them with a convenient chamber in some corner of my humble habitation where they may repose in peace.

He that loves a book will never want for a faithful friend, a wholesome counsellor, cheerful companion and an effectual comforter. By study, by reading, by thinking, one may innocently divert and pleasantly entertain himself, as in all weathers, so in all fortunes.

### Don't Break Down

Severe stains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run down, or under strain of any kind, take Electric Biters the matchless tonic medicine. Mrs. J.E. Van de Sande, of Kirkland, Ill., writes: That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Biters. Use them and enjoy health and strength. Satisfaction positively guaranteed. 50c, at all druggists.

### A Refutation

Sandlick, Ky., Sept. 26.  
Editor Eagle,

I noticed in the News-Record, published at Hindman, Ky., an editorial commenting on the result of our recent Republican primary headed "Bloody Eleventh." The use of that epithet, "bloody," hurled at our people by the enemies of this section usually come from the outside. It seems to me that such aspersion should never come from any man of mountain stock unless he really deprecates the blood of his country. The point I would especially make here is that the good people of Knott and the Tenth district generally are of the same caste and should foster the same sentiments and the same aspirations. In the despised mountain counties the people of all political and religious persuasions are bound not only by the same environs but are all of the same make-up and the same blood, and any vile aspersions thrown at mountaineers or at this good old patriotic Eleventh district is as much a stigma on those of one political party as another—though coming only from hot-headed politicians of one party.

do all you can to save the boys from such a fate. Don't say, "it's no boy of mine," and let him go. One word from you, fitly spoken, might save a dear life from an awful ruin. If others are determined to walk the path of ruin, let no Letcher county boy, let no mountain boy, be one of the number!

O-O

We're not given much to poetry

Or things like that;

We're not given much to dressin'

Or standing very pat,

But we hear the music hummin'

All around about

And know the train will get you

If you don't watch out!

Speculators are in the hollows,

They're pacin' up the hills,

They've money in their pockets

To pay their eatin' bills.

Plant now that "crap" of onions,

You lark and lazy "lout,"

And the train it then won't get

you

If you do watch out.

Why, sow that bed of mustard,

That patch o' turnips, too,

Take care of all those scrapin's,

They'll be of use to you,

One wide those dreamy eyes

Get now square down to biz

And when the train toots and hollers,

You can make things whiz.

O-O

LIFE AND ITS OPPORTUNITIES.

Life is a gift of inestimable value. Life is given us for a noble purpose, the improvement of ourselves and helping to better the condition of our fellow man. Isn't it important that we make a proper use of our time and our talents? Work and progress are the order of creation. Among the busy toilers in life's harvest fields there is no place for idlers. But we should not spend all our time digging in the earth after the perishable things of this world. Man was formed for a nobler purpose. Is he not living for eternity, where silver will not be needed, where gold will be of no value? Along every pathway in life are weary, toil-worn pilgrims longing for a cheering word, for a helping hand. We must not fold our hands in idleness, murmuring "there is nothing for us to do." We must not deny light and help to those who are adrift on life's stormy sea. They who have the brightest light should hold it up the highest that its rays may flash out the further in the surrounding darkness. If life and its many opportunities have been well improved, how grand will be the reflection when we come to stand on the other shore of life, and look backward, that our great object in life was to help our fellow men.

## THE NEW RAILROAD

For the benefit of those who have any hesitancy in believing that we are to soon have a railroad we publish below some facts coming from a positively reliable source:

The contract for the construction of the L. & E. Ry. from Jackson, Breathitt county, via Hazard and Whitesburg, to the mouth of Colly, three miles above the latter place, will be let on Oct. 10 of this year. The contract will be let in sections and the grading will commence at once all along the route. The work will be pushed so as to have as much as possible of the mud and dirt removed to the solid rock before the winter weather sets in, though the work will be pushed right on through the winter. It is believed that the road can be completed to mouth of Colly by Dec. 1, 1911. Practically all the rights of way, 95 per cent. at least, have been secured clear through the three counties.

The building of the road on from the mouth of Colly, for reasons best known to the managers, has not yet been definitely settled and so we cannot speak on this point yet with any authority.

Through the Eagle the General Council of the L. & E. Ry. desire to thank and highly compliment the efficient work of its managers and promoters in our county and all along the line for their efforts in securing the right of way.

Your complexion as well as your temper is rendered miserable by a disordered liver. By taking Chamberlain's Stomach and Liver Tablets you can improve both. Sold by all dealers.

The Cane Patch Church of Regular Baptists will hold their communion season at Eolia on the first Saturday and Sunday in October and invite all of the same faith and order to attend and commune with them.

**A Clean Salve**

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

## Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take in candy.

### On Important Business

On the special call of County Judge Jno. D. Fitzpatrick all the Justices of the county met here Monday for the purposes of inquiring plans to better the condition of the county's public roads. It appears that most of the free labor on the roads has already been expended and still the roads need a good deal more work, so now whatever funds the county has or can spare for road purposes will be used. Each Justice will be required to look over the ground in his own precinct and say what is necessary to be done. While the funds for road purposes this year are a mere speck of what will be required to put the roads in proper shape, yet every cent available will be spent in the most economical way so as to get the best advantage possible under the circumstances.

## 50 Per Cent Better

"I have used less than one bottle of Cardui," writes Mrs. Gertrude Ward, of Rushville, Neb., "and am feeling fifty per cent better than when I began taking it."

The ladies like it, because it is so easy to take, so gentle, so safe, so reliable in its results, and they have faith in its curative tonic powers, because of the thousands of other ladies it has helped. ## Dropsy—

### Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

L. TURLEY CURD,  
Wilmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Dr. Miles' Heart Remedy is sold by all druggists. If the first bottle does not benefit, your druggist will return your money.

### CARPET SWEEPER TOO NOISY.

Dealer Left with Memory of Good Joke to Compensate Him for Loss of Sale.

A hardware dealer in town tells a story about a prim old lady who came into his store the other day to purchase a carpet sweeper. She gazed here and there about the store as she entered, and finally going up to the dealer, she looked at him quizzically over her glasses and asked: "Do you keep carpet sweepers?"

"Yes, madam," replied the dealer, and naming the two kinds which he had in stock, asked which she desired.

"Well," said the lady, "you may show me both kinds, if you will."

"Just a moment, madam, until I get them from the rear of the store." And with that he went to an obscure corner and took down the carpet-sweepers from their hooks upon the wall.

It happened that in front of one of the makes which he desired there was a lawn mower so hung that he had to move it. He took it down from the hook and as he did so it rolled along the floor with a grinding rattle.

Before he had time to turn around he heard the old lady shout from the front of the store: "That makes more noise than my old one, and I don't care to look at it," and so saying, she whisked out to the door, leaving the dealer to wonder whether the joke was worth the loss of the sale.—Portland Express.

### The Stark Year Book for 1910

is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nurseries products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature.

Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$10.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California grape quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced.

To any one planting one tree or many, of fruits or ornamentals, this book is of inestimable value—a horticultural text-book—a guide to proper selection.

Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality.

Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.
